

## Backlit Film Gloss

[briteLine.com](http://briteLine.com)

BriteLine backlit film features a tough, opaque polyester substrate designed for most light box applications. The base material has natural diffusion properties resulting in high impact backlit prints. This product produces vibrant colors with superb light diffusion quality and will withstand heat from prolonged backlit exposure. Excellent for indoor or outdoor light box signage, backlit trade show displays and other light box applications.

### Applications

BriteLine backlit films are great for light box applications, exhibition panels, backlit banners, and any other graphic displays that use a light source.

### Ink Compatibility

Eco-Solvent, Solvent, UV & Latex

### Features & Benefits

- Vivid under daylight (with or without lighting on back)
- Grommets or sewn for rotating lightbox applications
- Tear-resistant
- The extra gloss surface produces vibrant images

### Physical Properties

Thickness 8.5 mil  
 Surface Gloss  
 Coated Side Printable on one side; material print side out

### Storage & Handling

Material should be handled with white fabric gloves to prevent finger markings. After printing, unused material should be stored upright or suspended in its original packaging. Limited one-year warranty when stored at 70°F, 50% relative humidity and out of direct sunlight in its original packaging.

Trimming; it is recommended when trimming this material to allow about .0125-.25" of white/unprinted border. It is not recommended to print a full bleed before trimming.
